

Top 10 Apps

for busy professional people!

Do you like to keep in touch with the latest technology? At Elysian, we like to keep our eye on the latest trends and have put together this list of top Smartphone apps for busy professional people! Click on the headings below to go to the respective websites...

MindNode

MindNode's focus and flexibility makes it the perfect brainstorming tool. The clutter-free interface lets you concentrate on generating and connecting your ideas. MindNode can even automatically rearrange especially complicated mind maps to make them easier to read. Perfect for creativity!

Good Practice Top Tips for Managers

A great way to start your commute. This free app is full of essential management tips that you can use as your own personal 'how-to' store when you want to put together a handout.

Reeder

In the learning and development world, it is important to keeping up to date with the latest thoughts and ideas but this can be easier said than done. Reeder is a top RSS app - your information sources come directly to you.

CamScanner

This is a useful document scanner. You can record and share anything from a flipchart page to an article. Once scanned, you can distribute it via PDF or email, or upload to cloud storage.

Quickoffice

Quickoffice gives you the power to create and edit Microsoft Office files from anywhere - anytime. Access, edit, and share Word documents, Excel spreadsheets and PowerPoint presentations. Great for when you are out of the office.

Smart Genius Quotes

This app contains over 2,400 quotes by some of the most inspirational thinkers and are there at your fingertips to use in a training session or in materials.

Tweet Deck

It's good to be connected, however, these days there are so many accounts and communities to keep track of and be involved in that it can take more time than it should to stay connected. TweetDeck is a handy free app that allows you to update Facebook and multiple Twitter accounts in one go. Keep in touch with your learning network.

CardSnap

It is simple to use - you just snap a picture of a business card and hit submit. The application does the rest. It captures the information from the business card, maps it correctly to the right fields, and generates a new contact automatically. A great way to store contacts quickly.

Mindtools

Access more than 100 concisely explained tools that help to make you a better boss. Learn useful skills whenever you have a spare moment. This is a free, fun iPhone app.

Evernote

This app allows you to record your creative ideas by storing notes, ideas, images and audio clips onto your phone.
